

Jaime M. Mena

Senior Revenue Operations · B2B SaaS GTM · California

jaimemurillomena@gmail.com LinkedIn jaimem.com Bilingual: English & Spanish

Summary

Revenue Operations professional in B2B SaaS with hands-on ownership of deal desk, forecasting, territory transitions, and sales compensation. Salesforce admin and builder; built a custom GPT for deal desk processing. Currently partnering with senior leadership at Argano on board-level growth planning. Bilingual English/Spanish; based in California.

Experience

Revenue Operations & GTM Analytics

May 2026 — Present

Argano · Senior Business Analyst

Revenue Operations and GTM analytics for Argano's go-to-market organization, working directly with senior sales and marketing leadership. I co-own the demand and pipeline-planning models behind board-level growth planning, and I own a suite of executive dashboards with standardized metric definitions. I designed an intent-scoring model spanning the account base, and its architecture became the GTM team's build plan. I own the authoritative Salesforce view of the company's priority growth accounts. On the governance side, I found a core CRM field failing quality checks and engineered the remediation path that fixed it. I am the link between C-suite GTM strategy and the systems and data that execute it.

Senior Manager, Revenue Operations

2025 — Jan 2026

Exiger

Ran the executive operating cadence for 40+ global reps. Led the territory transition to hierarchical rollups. Implemented Clari forecasting and MEDDPIC, lifting forecast accuracy 18%. Built a custom GPT for deal desk processing and cut deal approvals to same-day. Owned commissions end to end, from plan mechanics to payout.

Sales Operations Specialist

Apr 2024 — Dec 2024

Exiger

Managed 90-100 deals quarterly (ARR \$75K-\$750K) across Government and Commercial teams in AMER, EMEA, and ROW. Rebuilt commissions reporting and created standardized GTM SOPs. Accelerated monthly commissions processing by ~50%.

Revenue Operations & Digital Solutions Consultant

2024 — Present

Independent Practice

Ongoing practice running alongside full-time roles. RevOps engagements with B2B SaaS clients on GTM strategy, ICP refinement, territory planning, lead-scoring frameworks, and workflow integration. In parallel, building bilingual websites, booking automations, and analytics dashboards for family-run and community-facing businesses across Sonoma County and Jalisco.

Revenue Operations Analyst

2023 — 2024

eSUB Construction Software

Managed deal-desk operations processing ~30 deals quarterly. Built CSM dashboards for \$1.9M ARR renewal accounts. Improved data quality by ~15% QoQ.

Deal Desk / Revenue Analyst

2023

Restaurant365

Processed ~60 deals monthly across SMB and mid-market segments. Reduced rep errors by ~20% through training. Rebuilt reports and dashboards.

Sr. Revenue Operations Analyst

2022 — 2023

Honorlock

Built weekly GTM health scorecard. Supported territory redesign for 20-rep EdTech cohort. Reduced priority deal surfacing time by ~50%.
